Cash Subscription Application

Select a plan and enclose CASH with this form, and post it to the address below (US dollars or Euro are acceptable - please do not combine currencies). If you send it airmail it should arrive in about a week and a half from most parts of the world.

DO NOT SEND COINS. NO CHEQUES OR POSTAL ORDERS

You should be aware that sending cash through the mail is not secure and we can't take any responsibility for lost cash. However, some people still consider it more secure than offering your credit card number over the internet. You may wish to register the letter so there is proof of arrival. So far we have not had cash lost in the post but if it happens it will be your loss. Sorry but that's the only way it can work.

Note that if your email address doesn't work for whatever reason, we have no other way of letting you know the cash arrived.

Selected Plan:

Access to all images and videos

90 days

US \$70 -

EUR 50-

180 days

US \$120 -

EUR 80-

1 year (365 days)

US \$200 -

EUR 140-

Cash subscriptions are not available to Australian users due to proof-of-age requirements

If you are a current or past subscriber and wish to retain your username, tell us your

Sub_ID and / or username:

Email address:

PRINT CLEARLY IN BLOCK LETTERS

Secondary Email address (optional):

PRINT CLEARLY IN BLOCK LETTERS

Wrap the notes in this form and post to: **Feck Pty Ltd**

P.O. Box 2934

Fitzroy Victoria 3065

Australia

If you don't receive your password with 15 working days, please check your junk mail folder. Email from us sometimes ends up there because we're an adult site. If you have one of those spam filter services which sends us a link to click or a code to enter, you won't get out email because the automated system can't do that. The other reason you may not have your password is because your application is in the pile of unreadable email addresses. Write to CSO@feck-service.com and tell us your details and if we have a matching form from you we'll reply to your email with your details. Of course it would be much better just to print clearly
